

ADDENDUM NO. 1 TO THE BIDDING DOCUMENT

Subject of Procurement: Supply, Delivery, Installation and Deployment, Testing, Training, and Commissioning of Software; and Provision of Cloud Infrastructure for Energy Information and Database System (EIDBMS)

Procurement Reference No: RERA-SPLS-001-OCB

The titling and numbering of the appendices of the **Specifications under Section VII-Schedule of Requirements** was incoherent. This has been corrected as shown below.

1. Original provision in the Bidding Document.

On page 87, the statement that reads....

Functional Specifications

The functional specifications define automation requirements for EIDBMS to ensure process efficiency, data integrity, and usability. Each specification is assigned a priority level, distinguishing Mandatory and Desirable features

Replace with;

APPENDIX I: Functional Specifications

The functional specifications define automation requirements for EIDBMS to ensure process efficiency, data integrity, and usability. Each specification is assigned a priority level, distinguishing Mandatory and Desirable features

2. Original provision in the Bidding Document.

On page 108, the statement that reads...

‘c

The support and maintenance specifications outline the activities performed by the Supplier after the implementation and acceptance process, including system upgrades and warranty services’

Replace with;

APPENDIX IV: Support and Maintenance Specifications

The support and maintenance specifications outline the activities performed by the Supplier after the implementation and acceptance process, including system upgrades and warranty services.

All other provisions of the Bid Document remain unchanged.
